

DUBAI FAMILY OFFICE INVESTMENT SUMMIT by Epicon Capital Club

6TH EDITION

INVITATION-ONLY

11- 12 June 2026
Palm Jumeirah Island
Dubai

SHAPING THE FUTURE OF FAMILY WEALTH

DUBAI FAMILY OFFICE INVESTMENT SUMMIT

BY EPICON CAPITAL CLUB

Sophia Moulin
CEO Epicon Capital Club

Welcome to the Dubai Family Office Summit.

It is a privilege to host you.

Under the theme Shaping the Future of Global Wealth, this Summit is not just a conference, it is a private convergence of global influence.

Curated by Epicon Capital Club, a private members club backed by a single Emirati family office, this gathering brings together a highly selective circle of family offices, sovereign investors, founders and strategic leaders who are actively deploying capital and shaping the next era of global markets.

This is where access is intentional.

No public panels. No open networking. No spectators.

Only curated rooms, closed-door conversations and direct engagement with capital allocators responsible for significant global deployment.

The purpose is clear:

To connect you with decision-makers, not intermediaries.

To unlock direct access to private market opportunities across technology, real estate, healthcare and impact-driven sectors.

To enable co-investment pathways with family offices operating at scale.

To position Dubai as a global gateway for cross-border capital and strategic expansion.

To build long-term alliances between legacy wealth and next-generation innovation.

At Epicon Capital Club, we do not create events, we build ecosystems of influence.

Aligned with the UAE's vision for economic leadership and global investment connectivity, this Summit represents a new standard of engagement: private, strategic and outcome-driven.

Because real capital does not seek attention.

It moves with precision, within trusted circles.

This is where those circles converge.

DUBAI FAMILY OFFICE INVESTMENT SUMMIT

BY EPICON CAPITAL CLUB

Radha Bhandari
Founder &
Managing Director
RB Strategic Management

Radha's personal and professional journeys are intertwined by the relationships she fostered from working and residing in The Bahamas, USA, and Dubai.

Her diverse cultural experiences taught her to embrace the challenges of new beginnings in her personal & professional life.

Radha's exposure in Asset Management lies in her experience working at global entities from Wall Street Firms such as Salomon Brothers in NYC to the Permal Group in Dubai.

Radha's business development and relationship management role spearheading asset management activities for clients ranging from banks, family offices and Institutions across MENA is where Radha learned the value of creating sustainable relationships in a constantly changing environment.

A humanitarian before anything, she is driven by the versatility of human connections and has developed an intuitive ability to help one realize and recreate the perfect personal and professional environment to flourish in. Her own past experiences allow her to connect the dots and bridge the gap effortlessly.

She combines her relationship management skills with her financial expertise to help businesses reach new heights in the shortest possible time for the long haul. She thrives on this journey like it were her own- every single time she works with a client.

BioVantix is building the next era of biologic therapy by solving the defining challenge of modern medicine: delivery. Our CMSV™ / ExoLip™ hybrid nanopatform fuses exosome-inspired biological navigation with the programmability, stability and payload versatility of engineered nanoparticles, creating a precision delivery architecture capable of dramatically improving targeting, potency, durability and safety across multiple therapeutic categories.

Powered by our AI-driven mechanistic modeling engine, BioVantix converts biologic development into a predictive, data-compounding system that continuously improves formulation accuracy, accelerates development timelines and increases the probability of clinical success.

This is not a traditional biotech asset; it is a scalable, multi-indication platform that can elevate dozens of molecules across oncology, immunology, CNS, metabolic disease and regenerative medicine. Each optimized program enriches the core dataset, strengthens IP defensibility and magnifies long-term enterprise value.

For strategic investors, BioVantix offers a rare blend of elite science, structural financial advantage and asymmetric return potential. Our Puerto Rico Act 60 framework amplifies capital efficiency, reducing burn, accelerating R&D velocity, enhancing reinvestment leverage and materially improving investor economics.

The result is a category-defining platform built for both scientific impact and exceptional investor returns, advancing humanity while unlocking the economics of the future of medicine.

Circular Genomics is delivering precision medicine for neurology and mental health using dynamic brain biomarkers called circular RNA.

These biomarkers are detectable in the blood and reflect brain status allowing for the earliest possible diagnosis of Alzheimer's Disease, prediction of antidepressant response, bipolar disease diagnosis and a range of other, critical applications.

Such biomarkers are urgently needed across all of neurology to disrupt and improve the current standard of care and restore hope to patients.

The company has raised close to \$20M to date, is now partnering with a major biopharma company, and initiating a Series B process with expanded commercialization avenues.

Paul Sargeant
President & CEO
Circular Genomics
USA

Gibberish Economy is a groundbreaking tokenized luxury fashion brand inspired by cryptocurrency's evolution from dismissed "gibberish" code in Bitcoin's 2009 genesis block to a multi-trillion dollar asset class. Founded in 2025 by Kwah Jeremiah Massa, the brand transforms digital crypto heritage into tangible, high end apparel and accessories, celebrating resilience, authenticity, and generational wealth for over 500 million global crypto users.

Our mission is to bridge the cultural void in Web3 by creating physical symbols of digital status wearable artifacts that honor crypto milestones like the genesis block and the infamous 10,000 BTC pizza transaction. We envision a future where luxury fashion owns the blockchain narrative, blending heritage with innovation to foster a regenerative economy for discerning new class who value provenance over ostentation.

Seeking \$2.2 million in seed funding, with projections targeting \$500K revenue in Q3 2026, scaling to \$5.5M by Q1 2027 and break-even. The Solana based \$GIBB token (1 billion supply) provides utility via staking rewards (exclusive discounts), governance, revenue share, and token-gated access, backed by real fashion sales, AR services, and NFT royalties for deflationary, sustainable value.

Committed to authenticity, each item includes a "digital passport" NFT for provenance and sustainability tracking. Risks like market volatility are mitigated through diversified revenue (apparel, AR, tokens) and partnerships. With prototypes ready in Q1 2026 and launches in 2026, we're poised for acquisition by luxury conglomerates or tech giants.

LiCuSpace is a deep-tech start-up entering the market with an innovative, disruptive system solution using a smart combination of most-advanced laser technology and latest AI for a quantum leap in weather and climate analysis. The solution of LiCuSpace is able to collect weather data realtime - 24/7 - and up to 100km height. Combined with their own software and their own AI the company is setting new industrial standard for weather data, weather forecasts, climate analysis and climate modelling and predictions.

By this LiCuSpace is striving to become a highly flexible, reliable, and high-quality full-stack provider of hyperlocal atmospheric data and weather intelligence, building up a unique and secure data foundation for weather modeling and forecasting.

In the future, every farmer, every vehicle and train station, every oil rig, every airport and every large maritime ship will become a comprehensive supplier of weather data for the entire atmosphere using LiCuSpace technology.

And in the long run, the weather data collected worldwide will form a data pool which will allow every household, every factory, every airport, every ship and every agricultural unit to perfectly predict weather conditions leading to enormous savings of resources such as time, water, energy and money.

Ocean Park Investments is built on the belief that the public markets, though sometimes under-appreciated, consistently provide some of the richest dislocation opportunities.

As ETFs, index funds, and other mechanical strategies dominate investment flows, they also amplify volatility and inefficiencies, creating asymmetric opportunities where select companies offer limited downside and outsized upside.

This presentation will focus on how to protect and compound capital while preparing for these rare vintage periods, when shares of great businesses face forced sellers and fewer buyers.

Particular emphasis will be placed on global industrial-related companies, energy, and AI-centric businesses that remain underappreciated in today's marketplace.

Equiti Group stands as a distinguished global fintech and multi-asset brokerage, redefining how sophisticated capital accesses and navigates the world's financial markets. Headquartered in the United Arab Emirates and regulated across multiple leading jurisdictions, the Group offers a comprehensive gateway to global trading opportunities across foreign exchange, equities, commodities, indices, and digital assets. Built on a foundation of institutional-grade infrastructure, Equiti combines deep liquidity, precision execution, and advanced proprietary technology to deliver a seamless and secure trading environment for a discerning international clientele.

At the core of Equiti's offering lies a commitment to excellence, transparency, and performance. The firm's architecture is designed to meet the evolving demands of family offices, high-net-worth individuals, and institutional investors who require not only access, but strategic advantage. Through its robust liquidity network and best-in-class execution model, Equiti enables clients to operate with confidence across volatile and complex market conditions, ensuring both efficiency and resilience in capital deployment.

Beyond its technological capabilities, Equiti distinguishes itself through a strong regulatory framework and a client-centric philosophy that prioritizes long-term relationships over transactional engagement. Its presence in key financial hubs across the Middle East, Europe, Africa, and Asia-Pacific positions the Group as a truly global partner, capable of bridging regional markets with international capital flows. This geographic reach, combined with deep market expertise, allows Equiti to offer tailored solutions that align with the strategic objectives of sophisticated investors.

As financial markets continue to evolve, Equiti remains at the forefront of innovation, integrating emerging technologies and expanding its digital capabilities to meet the demands of a rapidly transforming investment landscape. The Group plays a pivotal role in connecting traditional finance with the digital economy, offering clients access to new asset classes and next-generation trading solutions within a secure and regulated environment.

Positioned as more than a brokerage, Equiti Group serves as a strategic enabler of global investment activity, empowering capital to move intelligently, efficiently, and without borders. Its unwavering commitment to integrity, innovation, and institutional excellence continues to solidify its reputation as a trusted partner for those shaping the future of wealth and global finance.

Testimonials

It was an honor to meet you at the Epicon Capital Club Summit in Dubai. SNAAP Transportation received a red carpet from Sophia Moulin. Please accept this email full of gratitude for your open hand of support and willingness to go above and beyond in having SNAAP Transportation at the Epicon Capital Club Summit Oct 17th for Sustainability. This event was a great opportunity for SNAAP Transportation to meet Family Offices and other groups and individuals that would be interested in our efforts as a pre-seed company.

Andrew J. Cary, Co-Founder & CEO The PTSolution, SNAAP Transportation, USA

“Very well organized event. It makes a lot of sense to attend this event for the networking. Most of the Family Offices, sometimes they do co-investments. So it’s the right place to exchange ideas and finding new projects to invest. This Summit helps a lot to find the right investor for the right startups and entrepreneurs.”

Carlo Almeida Founder Fourstar Investments Switzerland

We really did get through some great topics today. Sustainability is such an important topic. It was a lot of nuance conversation. We addressed a lot of the challenges, a lot of the opportunities and particularly on why this region is leading the way globally. I would highly recommend this event to everybody looking to discuss family office opportunities with some real leaders in real wideranging services.

Gregg Davis, Ambassador Bitcoin, Oasis Association UAE

Sophia, I’ve made new friends from your event - intellectual passionate entrepreneurs - so I want to thank you again for curating such a smart network.

Sophia Moulin: Pioneering Leadership in Family Office Investment and Sustainable Business

Sophia's Epicon Capital Club is an innovative platform in the family office sector, connecting family offices and private investors in the Middle East. It offers curated investment opportunities for modern high-net-worth individuals (HNWIs), emphasizes sustainable and impact-driven investments, and facilitates exclusive networking among elite business circles.

Sophia's influence reaches beyond investments as a Board Member of the Hellenic Business Council in Dubai, where she leads the Education Chapter, heads the Women in Business Chapter, and promotes growth and collaboration in Dubai's Greek business community. Her role highlights her skills in bridging cultural divides and fostering international business relationships, which are essential in global high-finance and family office management.

www.thespotlightmagazine.com

As the founder of Epicon Capital Club and a key figure in Dubai's business community, Sophia is not just facilitating investments; she's shaping the future of how family offices and HNWI's approach wealth management, sustainability, and social impact.

Sophia has made a significant impact in the family office ecosystem by creating the Epicon Family Office Investment Summits. These events have quickly emerged as premier gatherings for family office principals, executives, entrepreneurs, and industry leaders from the Middle East and beyond.

The summits are well-regarded for providing cutting-edge insights into wealth management, sustainable investing, and impact-driven opportunities, along with unmatched networking potential among elite business circles.

Sophia's vision encompasses societal impacts alongside financial success: She focuses on sustainable initiatives and empowering women in business.

As a prominent speaker, she discusses sustainable finance and women's leadership, illustrating how business leaders can achieve profit while promoting social good.

Her leadership in family office investment is supported by a diverse background, including experience as an international flight attendant in the Middle East and beyond.

Emirates, which

Her roles in healthcare administration helped her develop skills in customer relations and complex systems management.

Additionally, her early career in municipal governance and architecture provided insights into urban development and public administration, informing her unique approach to investment and business leadership.

Her leadership is further supported by a strong educational background. Sophia holds a certificate in Entrepreneurship from Harvard Business School Online, a diploma in Human Resources

Management from Alpha Academy UK, and has training in veterinary science and aviation, reflecting her diverse interests and adaptability.

Sophia Moulin exemplifies a new breed of investment and family office leaders. Her approach combines strategic insight into financial markets with a commitment to sustainable and ethical investment.

Her story highlights the power of visionary leadership in creating platforms that align financial success with broader societal goals.

Sophia Moulin: Visionary CEO Pioneering Family Office Investment and Sustainable Growth in the Middle East

By Aahmad.11 September 9, 2025

Leading Epicon Capital Club with Innovation and Integrity

Sophia Moulin is the dynamic Chief Executive Officer of Epicon Capital Club, a prestigious, invite-only business community powered by over 100 Family Offices from across the Middle East and beyond. Under her visionary leadership, Epicon offers investors exclusive access to private investment opportunities spanning multiple asset classes, blending expert sourcing and meticulous due diligence to deliver attractive returns with meaningful social, environmental, and economic impact.

As a trusted advisor to prominent family offices and private investors, Sophia has remarkably shaped the landscape for growth-stage companies seeking to enter and expand within the Middle East markets, transforming startups into thriving, high-growth businesses. Her strategic insight and commitment to excellence have positioned Epicon as an award-winning platform, recognized for its notable contribution to the UAE's Net Zero Strategy by the Private Office of Sheikh Marwan bin Mohammed bin Rashid Al Maktoum, a ruling family member of Dubai.

A beautiful Iftar evening in Dubai

Grateful to Epicon Capital Club for organizing such a memorable gathering, and to the amazing Sophia Moulin for bringing it all together.

The evening was not just about sharing a meal, but also about sharing ideas — with insightful talks around humanity, investment, and the future of technology.

Ramadan evenings in Dubai continue to shine with inspiring events like this one ✨

It was a pleasure to deliver a keynote titled **"The Role of Technology in Business Growth"** as part an event organized by **Epicon Capital Club-Middle East Family Office Community Middle East Family Office Community**.

The main theme of the keynote:

- ◆ The Innovation Paradox – Why Change is Hard.
- ◆ How Technology Drives Business Growth: by Enhancing efficiency & automation, unlocking new revenue streams and Expanding market reach.
- ◆ The Game Changers – AI, Blockchain & Beyond.
- ◆ Winning with Innovation – Practical Steps: Foster a culture of innovation, invest in scalable technologies and Upskill employees for the future.
- ◆ The Next Frontier – What's Coming?
- ◆ Call for Action: The Time is Now – Innovate or Stagnate.

Special thank always to **Sophia Moulin** for her kind invitation.
